

Notice of Sale

A reminder that anyone selling all or part of a MF property must notify Council office within 30 days of the transaction date.

This is a requirement of Section 11 of the Council Regulation.

Notification assists our program administration. It enables us to contact new owners to find out whether they wish to continue to have the property in the MF Program. If the Council office does not hear from the owner, then the property automatically loses managed forest land status effective the next assessment year.

We remind you that an exit fee is levied if the property is withdrawn from the MF Program and has not been MF land class for 15 years. The exit fee is normally payable by the owner of the property at the time that it is declassified.

The Notice of Sale form is on the Council website in the Landowner Requirements section.
